Sources and Uses: Unrestricted Funds are student tuition and fees collected by the University of Idaho. In addition to tuition, all students are charged a variety of fees, where applicable, including: part-time fees, graduate fees, professional fees, course overload fees, summer session fees, in-service teacher fees, Western Undergraduate Exchange fees, employee/spouse fees and senior citizen fees. Tuition and fees can be expended without restriction in the performance of the primary objectives of the institution (e.g., instruction, research, extension, and public service, and for programs that support those functions)

Division Description

The College and Universities Division includes the following five programs: Boise State University (BSU); Idaho State University (ISU); University of Idaho (UI); Lewis-Clark State College (LCSC); and Systemwide Programs, which includes funding for programs and efforts that benefit all four institutions. The Legislature appropriates both from the General Fund and from dedicated funds to this division. Dedicated funds include endowment funds and revenue from tuition and fees. Federal funds and other "local funds" from specific fees are not appropriated by the Legislature.

STUDENT TUITION & FEES

Student Tuition/Fee Increase Approval Process

1. **Notice and Comment Period.** Student tuition and fees are set by the State Board of Education annually. At least six weeks prior to fee setting, the institution's CEO shall transmit in writing to the student body president and student newspaper, the fee change proposal describing the amount, purpose, and expected total revenues resulting from the fee increase. A public hearing must be held with students invited to comment.
2. **Board Action.** To provide the institutions with enough time to prepare their coming fiscal year operating budgets, the state board generally takes final action on fee changes in April.
3. **Effective Date.** Typically, the board sets the beginning of the upcoming fiscal year as the effective date for any approved fee changes.

Tuition/Fees Approved by State Board of Education

Appropriated by Legislature

UNRESTRICTED

1. Tuition: any and all educational costs including instruction, support services, maintenance & operation of physical plant
2. Part-time Students
3. Graduate Students
4. Professional (law, medicine, etc.)
5. Summer School

Appropriated Funds: In FY 2018, the Legislature appropriated 39.5% of the funds that support the college and universities' total operating budgets. Of the total amount, the General Fund represents 20.1%, student fees represent 18.3%, and endowment earnings represent 1.13% (see Endowment Fund Investment Board agency profile in this book for a history of endowment distributions).

Non-appropriated: FY 2018 operating funds that were not appropriated by the Legislature represented 60.5% of the total operating budgets for the four-year institutions. The information on the following pages provides details of those amounts, both consolidated and by institution.

Grants, Gifts, and Contracts: These funds include state and federal grants, private gifts, and competitively-bid contracts.

Auxiliary Enterprises: These funds are institutional business enterprises such as bookstores, student housing, intercollegiate athletics, student unions, etc.

Indirect Costs: These funds are from specific, negotiated rates applied to externally-sponsored projects (grants, contracts, cooperative agreements, subgrants, and subcontracts) funded by federal, state, or private sponsors. These rates allow the institutions to recover certain costs (e.g., facilities, utilities, libraries, administration, student services, etc.) associated with the projects.

Enrollment Workload Adjustment: Each year there is a budget request to keep pace with enrollment growth at the four institutions. Enrollment Workload Adjustment (EWA) is not based on enrollment (i.e., full-time enrollment or headcount), but rather is a calculation based on a three-year rolling average of the increase in resident credit hours, weighted by course level (lower division, upper division, masters, doctoral, and law), and discipline.

Occupancy Costs: Those costs associated with occupying eligible space including custodial, utility costs, maintenance, and other costs (IT maintenance, security and safety, insurance, landscape maintenance). "Eligible space" means all space other than auxiliary enterprise space. Occupancy costs for "common use" space (i.e., space which shares eligible and auxiliary enterprise space) will be prorated based on its use.

Systemwide Programs: Funding for Systemwide Programs is included in the college and universities' appropriation and then distributed to the institutions by the Office of the State Board of Education. Systemwide Programs include:

- (1) Higher Education Research Council (HERC): Formed in 1998 as a result of the State Board of Education's interest in promoting basic and applied research at the four-year institutions, HERC is responsible for implementing and administering the Board's Higher Education Research Council policy and related grant programs, which are designed to stimulate competitive research at Idaho's institutions.
- (2) Instructional projects specifically designed to foster innovative learning approaches using technology, to promote accountability and information transfer throughout the higher education system on a longitudinal basis, and to promote the Idaho Electronic Campus programs.

Notes:

1. Because student fee increases are typically approved by the board after the College and Universities budget has been set by the Legislature, the operating budgets will have more appropriation for student fees than the original appropriation. These additional dollars are included in the "Non-cog Tuition/Fees" category of the non-appropriated funds. The operating budgets do not include funding related to Professional-Technical Education, Special and Health Education programs, and the Permanent Building Fund.

Invested in capital assets: This represents an institutions' total investment in capital assets, net of accumulated depreciation and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included.

Restricted, expendable: This represents resources in which an institution is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted: This represents resources derived from student fees and sales and services of educational and auxiliary enterprises (self-supporting activities that provide services for students, faculty, and staff).

Note A **Obligated** - Contractual obligations represent a variety of agreements which support initiatives or operations that have moved beyond management planning into execution. Obligations include contracts for goods and services, including construction projects. Obligations contain debt service commitments for outstanding debt and staffing commitments for personnel. These amounts also consist of inventories and other balances for contractual commitments.

Note B **Designated** - Designated net assets represent balances that are not yet legally contracted, but have been dedicated to initiatives that have been deemed to be strategic or mission critical. Balances include capital or maintenance projects that are in active planning phases. Facility and administrative returns from sponsored projects (grants and contracts) are reinvested in infrastructure, or efforts to obtain additional grant funding. Documented central commitments to initiatives that have been approved at an executive level are designated.

Note C **Unrestricted Funds Available** - Balance represents reserves available to bridge uneven cash flows as well as future potential reduced funding. Current examples of potential future reductions are: budget reductions or holdbacks, enrollment fluctuations, and unfunded enrollment and workload adjustments. The Board of Education has a benchmark within its strategic plan for unrestricted funds to be a minimum of 5% of operating expenditures.

Employer-paid benefit changes include a 14.6% reduction (or \$1,910 per eligible FTP) for health insurance, bringing the total appropriation to \$11,190 per FTP. Also included are a 6.8% increase for life insurance, a 5.5% increase for PERSI contributions, and adjustments to workers' compensation that vary by agency.					
Agency Request	0.00	(4,587,900)	(3,452,200)	0	(8,040,100)
<i>The Governor recommends \$11,650 per eligible FTP for health insurance, which is a decrease of \$1,450, or 11%, from the previous year; a two-month employer and employee premium holiday; and a transfer of \$13.1 million from health insurance reserves to the General Fund. This recommendation also reflects the PERSI Board's decision to not increase the employer contribution for FY 2019.</i>

Nondiscretionary Adjustments					
The enrollment workload adjustment formula (EWA) is established in Board of Education policy and has been the primary formula for determining funding requests from the Legislature for the past decade. The Higher Education Taskforce explored outcome based funding (OBF) but elected not to propose the implementation of OBF funding for FY 2019. The Office of the State Board of Education provided preliminary FY 2019 EWA calculations that show a reduction of \$347,300 for University of Idaho and \$73,600 for Lewis-Clark State College, and an increase of \$3,092,000 for Boise State University and \$568,300 for Idaho State University. These adjustments net to an overall increase of \$3,239,400.

Endowment Adjustments					
The total distribution of endowment funds includes \$3,739,400 to Idaho State University (ISU), \$10,498,800 to University of Idaho (UI), and \$73,800 to Lewis-Clark State College (LCSC). The institutions use portions of endowment distributions for personnel costs. This adjustment provides appropriation for endowment funds not otherwise used for personnel costs and includes \$165,900 for ISU, \$270,400 for UI, and \$73,800 for LCSC. This adjustment nets to an overall increase of \$510,000.

1. Object Transfer for PC					
Boise State University, University of Idaho					
Boise State University (BSU) and the University of Idaho (UI) are requesting to shift a portion of the funding source that pays for personnel costs. These institutions are requesting that the General Fund cover more personnel costs, which includes employee benefit costs and the change in employee compensation (CEC). The institutions believe that this will reduce the need to increase student tuition and fees to cover changes in their personnel costs. As an offset, the institutions are requesting a transfer from the General Fund to their dedicated funds for student tuition and fees in operating expenditures and capital outlay. The overall request for the current year has a net-zero impact on each institution. Beginning in FY 2020, however, this change will add to the obligations of the General Fund.					
NOTE: BSU is requesting to shift \$7,283,100 in dedicated fund personnel costs to the General Fund, shift \$3,600,000 in operating expenditures from the General Fund to dedicated funds, and shift \$3,683,100 in capital outlay from the General Fund to dedicated funds. This shift would change the funding ratio used to determine the allocation for personnel cost increases, from 51.1% on the General Fund to 55.4%. Not including variable benefit costs, there would be an increase of \$197,400 for a 1% calculated CEC and benefit costs from the General Fund in FY 2020 that would have otherwise been paid from dedicated funds.					
UI is requesting to shift \$4,262,000 in dedicated fund personnel costs to the General Fund and shift \$4,262,000 in operating expenditures from the General Fund to dedicated funds. This shift would change the funding ratio used to determine the allocation for personnel cost increases, from 58.4% on the General Fund to 61.5% on the General Fund. Not including variable benefit costs, there would be an increase of \$177,100 for a 1% calculated CEC and benefit costs from the General Fund in FY 2020 that would have otherwise been paid from dedicated funds.

2. Idaho Regional Optical Network (IRON)					
Systemwide Programs					
Systemwide Programs request \$800,000 ongoing from the General Fund to sustain maintenance and operations for the Idaho Regional Optical Network (IRON). IRON provides high-speed interconnectivity of the research institutions throughout the state to access research networks in collaboration with the Idaho National Laboratory (INL). Funding would enhance the current infrastructure from a 10g network to a 100g network, connect new facilities, and support the work of 200 faculty/researchers within Idaho institutions. Systemwide Programs would leverage requested funds against INL and IRON non-General Fund investments of capital outlay for enhancements and initial implementation. The totality of this request is for operating expenditures to support maintenance on the network.

3. Degree Audit and Data System					
Systemwide Programs					
The agency requests \$350,000 ongoing from the General Fund to build and maintain a degree audit and data analytics system to support student retention and degree achievement. The Governor's Higher Education Taskforce met throughout 2017, and specifically recognized the need for a degree audit and data analytics system that would help postsecondary institutions identify students in need of additional support and guidance. The requested amount would be used for ongoing annual licensing and maintenance costs for a system that would be utilized by board institutions.

4. BSU, Public Service Initiative					
Boise State University					
Boise State University (BSU) requests 16.66 FTP and \$2,147,900 ongoing from the General Fund for the expansion of the School of Public Service and to support the Public Service Initiative. Boise State University believes that the funding will increase data analysis capacity by supporting a public service data center and research lab. This capacity would support Idaho's municipal governments and provide an alternative to costly private data and policy analysis options. If fully funded, BSU intends to construct a Public Service Data Center and Research Center to support the initiative.

5. BSU, Career Readiness and Success					
Boise State University					
The agency requests 27.00 FTP and \$2,575,000 ongoing from the General Fund to develop a coordinated model of career advising services to support students. Boise State University has piloted the expansion of services within the College of Business and Economics and has recognized increased student engagement. Students engaged with the pilot experienced a 15% increase in graduation rates, an 18% decrease in length of academic career, increased degree declarations, and increased retention rates. Moneys would be used to expand this model across campus, expanding academic support and career counseling to improve retention and career readiness. The entirety of the request is for personnel costs and would include 18 career specialists and nine faculty.

6. ISU, Health Sci and Workforce Exp					
Idaho State University					
The institution requests 21.00 FTP and \$3,351,400 from the General Fund to expand program and course offerings in health sciences. This request includes program expansion for occupational therapy, clinical psychopharmacology, and dental residency; enhancing the pharmacy presence in northern Idaho; and general growth and enhancement in the university's 14 in-house clinics through additional faculty and equipment purchases. Funding would also support interprofessional education; health research infrastructure; rural health outcomes and quality; marketing, promotion, and communication of the University of Idaho's health care programs; and its ability to attract rural and underrepresented minority Idaho high school students into professional health training programs.

8. LCSC, Compliance Efforts					
Lewis-Clark State College					
The institution requests 2.00 FTP and \$177,900 from the General Fund to aid in compliance efforts in light of the Governor's Taskforce on cybersecurity findings. Funding would be utilized to hire a cybersecurity analyst to address critical security controls and support user education to minimize cyber vulnerabilities. This position would be responsible for securing infrastructure and developing an education initiative for staff and students. The institution would also hire an environmental health and safety specialist who would be responsible for developing campuswide policies and protocols pertaining to hazardous materials. At present, many persons manage hazardous materials across campus with no central oversight. The other four-year institutions in the state have dedicated staff for this purpose. Of this request, \$171,900 is ongoing and \$6,000 is onetime.

9. UI, Library Investment - Phase II					
University of Idaho					
The University of Idaho (UI) requests 5.75 FTP and \$1,798,300 ongoing from the General Fund to expand the library research portfolio and achieve Carnegie R1 status. The Carnegie Classification of Institutions of Higher Education is a framework for classifying colleges and universities throughout the nation based on their level of research activity, research expenditures, number of doctoral degrees awarded, and research focused faculty. R1 is the highest classification provided for universities and indicates the highest level of research activity. Of the request, \$472,700 is ongoing for personnel costs, \$111,800 is ongoing for operating expenditures, and \$1,200,000 is ongoing for capital outlay. An additional \$16,800 is requested for onetime capital outlay. Personnel additions would include three librarians/professors, one archivist/professor, a library technician, a repository programmer, and student employees. Ongoing capital outlay would be utilized to grow the library's acquisitions and content, including moneys to continually upgrade equipment to access digital content. UI believes these additions will advance its research, teaching, and land-grant missions and augment its current status as Idaho's largest research library.

University of Idaho					
The University of Idaho requests 3.85 FTP and \$319,900 from the General Fund for additional personnel in the areas of crisis management and critical support for students with autism spectrum disorders (ASD) through the Raven Scholars Program. Moneys would support the hiring of two student support case managers who would provide crisis intervention, short-term counseling, and referral support for students. Managers would coordinate with the campus's suicide intervention and mental health assessment programs as well as impact student retention and success by assuring that students can connect to all available resources for their success. Moneys would also support services through the Raven Scholars Program to students with ASD and support retention and integration into the university community.
